

FIBER EXPANSION PROJECT - PHASE 1

In 2012, TekWav, a Sherman-based Internet Service Provider, began its journey of delivering internet service to many under-served and unserved Grayson County area residents and businesses. As an approved Eligible Telecommunications Carrier (ETC) by the Public Utility Commission of Texas, TekWav is in the process of funding a state-of-the-art, future-proof fiber optic broadband network in Grayson County.

We are committed to bringing competitive choice and the best technology available to all residents and businesses.

TekWav will be constructing a **10Gbps symmetrical broadband network** to **service all residents and businesses** in our coverage area.

Estimated Construction Budget: \$180,000,000
Construction Timeline: Estimated 4 years
Estimated # of Residents: 50,000
Estimated # of Businesses: 3,500
Over **900 miles** of Construction
Engineering Work has Begun

COVERAGE MAP
